## A Forum in Early Childhood Inclusion

*Supporting Young Children with Severe Disabilities  
in School and Community Settings:*

*Enhancing Participation Through the use of Assistive Technology*

This workshop will present information on how to design inclusive learning opportunities for young children with disabilities through the use of adaptations and assistive technology. Participants will learn how to use an interview format to identify activities/routines in which to embed adaptations/AT so that young children's participation and learning is increased in inclusive natural learning environments: the home, community, and school.
